Fight Between John L. Sullivan's Trainer and Jack Barnitt.

Boston Mike Kelly's Saloon the Scene of the Conflict.

Sullivan Too Much Under the Influence of Whiskey to Interfere.

The great John L. Sullivan is on another spree. The present "off" of the famous Boston slugger is not merely one that covers a day or two, but has, in fact, extended ever since he landed in New York some time ago. When he left Boston it was his intention, so

he said to old friends, not to drink anything intoxicating while he was in the metropolis. That pledge was not kept long. He had scarcely arrived when in company with

some New York admirers he again started to im-bibe. The first night was spent with Phil Lynch and

boon companions in the haunts along Sixth avenue.

His condition was not pleasing to his backers. The mode of life he was leading was anything but the one a man supposed to be getting in condition for a championship battle should follow, and his backers have become alarmed.

About 1 o'clock this morning he was out enjoying himself as usual. Down Broadway he sauntered with a rather unsteady gait. With him were Jack Barnitt, his trusted friend and adviser; Jack Hayes, his trainer, and Mike Sullivan, his brother.

They walked to the corner of Thirty-first street, when the champion stopped under the electric light. Whether it was the glare of the light that made his face look so wan and haggard or not, certain it is that he presented the appearance of a man who had been abusing simple of regularly.

"Come," said Jack Barnitt, "let's go to the hotel."
No. I'm not going new. We'll go to Kelly's for awhite," and suiting the section to his words, the big fellow started towards the place kept by his friend the ball-player.

It was useless for Barnitt to advise him to go to the hotel. He entered, and taking a seat in the back room was th. first to order drinks.

For himself he ordered plain whiskey and drank it down with evident relish. The fact that he was there nettled Mike Sullivan, who blamed Hayes for leading him on. The debate grew quite heated, when Hayes told Mike to come outside and settle it.

The big fellow was in a maudlin condition, but he was still sensible enough to help on a fight.

d. Go one and whip that fellow," he growled to brother. Mike was about to go when Jack nitt jumped up, and, holding out his hand, Mike to keep back and said he would take

care of Hayes.

This challenge pleased Hayes, who has had a feeling of lealonsy concealed in his breast against Barnitt for some time and thought it a

good time to avenge it.

The latter is a triffe the heaviest, but Hayes is accounted a good one.
Out on the sidewalk they both hurried, and doffing their coate went at it. Barnitt landed his right on Hayer's nose and, clinching him, won a fall. They were taken apart. Barnitt again smashed Hayes, who seemed to be too full to fight.
The last time they were separated it was only done by police warning.

The last time they were separated it was only done by police warning.
Then they went in the salcon. A big crowd had gathered and both men wanted to show what they could do.
Inside the place the quarrel was renewed. Hayes called Barnitt a big coward. Quick as a flash eat shot the latter's right, catching Hayes on the face. Then they clinched, and down went the doughty second with Barnitt on top.
They were pulled apart and warned not to continue the fraces,
All this time Sullivan was in the back room, unaware of the disturbance caused by his two friends. Hayes was marked on the face, while Barnitt escaped unserstched.
It is rumored to-day that Sullivan's backers threaten to withdraw their money if he does not reform at once.

van, who for years have remained steadfast, are now greatly troubled on account of the reports from New York that the "Big Fellow" is leading the life of a bacchanalian.

One of his travelling companions writes a friend in this city to the effect that John is taking listle or no care of himself and, in fact, is acting fully as bad as he did before leaving Boston; and adds that it is the intention of his backers to "call him down."

If taken in time and in the proper way John may be made to see the error be is making, and pull himself together for the effort of his life.

in the London Market.

When the London cable was received this morning at the Metal Exchange in Pearl spot copper in the London market since yesof a sensation.

Many of those who had ridiculed yesterday the idea that there was anything wrong with the big French copper syndicate are now beginning to be convinced that it is getting very near the end of its rope, if it has not reached it already.

For some time past prices have been declining; the falling off from top prices in the London market aggregating about £10 per

The reports received yesterday of the panic in the Paris Bourse over the sudden death of President Deufert-Rochereau, of the Compton d'Escompte, which is the big banking house that has been all along backing the copper syndicate formed by the Societé des Métaux, and the subsequent fall in the shares of the syndicate, gave rise to the belief that the final hour of the syndicate had come, and that it was on the syndicate had come, and

of the syndicate, gave rise to the belief that the final hour of the syndicate had come, and that it was on the very eve of a total collapse. Since the origin of the movement to monopolize the copper market about eighteen months ago, the syndicate has had to take the product from all parts of the world.

The steady buying advanced prices up to their highest point, and now the syndicate has under its control 160,000 tons of copper repersenting a capital of \$60,000,000 in round numbers. As the Societé des Métaux has a capital of only \$2,000,000, the amount of money which has been necessary to purchase this immense stook of copper has been drawn from many sources chiefly through the efforts of the banking house of M. Deufert-Rochereau.

The opinion of all well-informed coffee men in this city is that the weight of this burden has been too great to bear already and that the syndicate, which has contracts to run for at least two years yet, will have to give it up from necessity, for it cannot raise money enough to keep on buying.

It will require about \$60,000,000 more to enable the syndicate to carry out its scheme, and the prospect that it can do this is said to be very remote.

The sgents of the copper syndicate in this city, Jere. Abbott & Co., of 23 Cliff street, decline to say anything for publication, except an emphatio denial of the suicide of M. Deufert-Rochereau.

Mr. Mendel, a member of the Metal Exchange, said he expected to see copper down to nine cents again in a short time, and did

Mr. Mendel, a member of the Metal Exchange, said he expected to see copper down to nue cents again in a short time, and did not believe the syndicate could keep up the market much longer.

It could only do so at an enormously increased outlay, and with the public as suspicious as they are at present it would be very difficult to induce them to put money in the scheme.

The suggestion is made that perhaps the decline is the result of a fictitious bear movement on the part of the syndicate to enable them to make new contracts at lower rates. The idea is discredited, however, by the majority of dealers. jority of dealers.

A Sudden Drop in Copper of \$20 a Ton Mr. Lowery Tells How Marketmen Were Induced to Pay Up.

Commissioner Holahan and his colleagues of the Board of Accounts were on hand in street and reported a decline of £4 a ton in the Stewart Building bright and early this morning to resume their investigation into terday evening's figures, there was somewhat the West Washington Market stand bribery

charges. William G. Smith, of West Hoboken, was the first man called to testify.

Mr. Smith said he had beard that the policy of the Comptroller was to exclude those from the new market who were not residents of New York City, but he was afterwards told the old West Washington Market, Mr. Otis, that the Comptroller only wanted to exclude those Jerseymen who had been sub-letters.

Mr. Smith knew Mr. Woltman very well and had talked to him several times. He spoke to him at the Comptroller's office and lsewhere about securing a certain location. He had heard marketmen talk about paying

He had heard marketmen talk about paying for their stands.

When asked to say, under oath, whether he told any one that he agreed to pay \$500 to Woltman for two stands, he refused, but asserted that he never paid any money to Woltman. He also remarked that \$500 would be an exorbitant price for two stands.

At the request of Mr. T. C. Kimball, President of the Gansevoort Bank, witness went to Mr. McAdam in the Comptroller's office.

Thomas Lowery, of Sullivan, Lowery & Co., testified that his firm beld five stands in the new market, and adjoining these was one owned by Mr. Hart.

Mr. Lowery detailed the system on which

his firm works. There were three members in it, Messrs. Sullivan, Murphy and himself. Mr. Sullivan and witness were in the office one day when Woltman walked in with their permits, and throwing them down on the

desk, said:
"Boys, this should be worth something."
Woltman walked out and they talked over
what he said and came to the conclusion that
he meant money. Then they decided to give
him \$250, and one day shortly afterwards,
when Woltman was walking through the
market, Sullivan handed him a roll of bills amounting to #250 which he promptly pock-eted and walked off.

The next witness was a Jerseyman, Wyckoff E. Dye, and his partner. Mr. Kughler, was a Jerseyman also. They held two stands in the new market, one of which they rented from

They had some difficulty in getting permits, and both spoke to the Comptroller and Chief Clerk McAdam, who said they would try to accommodate them. Mr. McAdam told Kuzhler that Jerseymen were not to be excluded.

Witness made an appointment with Mr. McAdam at the latter's house. He went there in the evening and Mr. McAdam was so tired that witness agreed to go back the following evening. He did so and went over the market map with Mr. McAdam would not promise to give him this one, but teld him to see the Comptroller in the morning.
